## ASQUITH FURNISHES STATISTICS ON THE WAR

London, Nov. 2.—In his address before the house of commons this afternoon, Premier Asquith stated that Field Marshal Sir John French, commander of the British forces on the Franco-Belgian front was now in command of nearly 1,000,000 men.

Mr. Asquith said the total casualties in France and Flanders amounted to 377,000.

He asserted the Germans had not made a net gain of a foot of ground since April.

The premier asserted that the financial situation of Great Britain was serious and that the nation must be prepared to make far greater sacrifices than it had yet done to enable it to sustain the burden imposed by the war.

Reviewing the work of British submarines in the Turkish campaign the premier said that in the sea of Marmora they had sunk or (Continued On Page Six)

## The 1914 Vote

Columbus, O., Nov. 2.—Eighteen counties gave a majority against the prohibition amendment a year ago, and 70 recorded a majority in favor, it was recalled today, while a similar amendment was being submitted at the polls.

The 84.35 majority against prohibition in the state, the difference between 501,177 for and 583,329 against, was made up mainly because of these majorities in the principal wet counties:

Hamilton 76,000; Cuyahoga 44,000; Lucas 10,500; Montgomery 7,500; Butler 5,700; Erie 3,000; Franklin 2,500; and Anguilla 1,000. The aggregate of dry majorities in the 70 counties reduced these wet majorities, of course.

Counties which voted wet by majorities of less than 1,000 were Clermont, Jackson, Lake, Miami, Ottawa, Sandusky, Scioto, Seneca, Shelby and Warren. Notable dry counties were Summit, which gave a 2500 majority for prohibition; Columbiana 3,000; Stark 141 and Mahoning 793 for.

Green gave a majority of one vote for prohibition.

The vote on the prohibition amendment in the most populous

counties last year was as follows: Hamilton, 17,157 for, 93,153 against; Cuyahoga 36,203 for, 50,913 against; Lucas 17,919 for, 38,490 against; Franklin 26,205 for, 28,734 against; Montgomery 16,661 for, 24,115 against; Butler 5,755 for, 11,402 against; Columbiana 10,284 for, 7,280 against; Mahoning 12,343 for, 12,150 against; Stark 11,820 for, 13,776 against; Summit 11,720 for, 12,232 against.

## HALF DOZEN ARE INJURED ON AMERICAN SIDE OF THE BORDER; EXPECT MORE FIGHTING

### BULLETIN

Douglas, Ariz., Nov. 2.—Sergeant Walter Mays and Private Mitchell, company I, seventh regiment, infantry, were wounded in a trench west of the United States customs house shortly before noon. Mays was wounded in the right hand and Mitchell in the left leg.

Douglas, Ariz., Nov. 2.—After four desperate attacks on Agua Prieta, which kept the Carranza defenses blazing practically all night with flashing guns and bursting shells, General Francisco Villa drew off shortly after daylight today. At that time a half dozen persons on the American side of the border had been wounded.

Losses of the Carranza garrison were reported by General Calles as 45 killed and 75 wounded, although unofficial reports stated his casualties were 250. Villa dead and wounded in large numbers were scattered over the desert outside the barbed wire entanglements which surrounded the Mexican town.

The battle continued practically without intermission from yesterday afternoon at 1:45 o'clock until 6 o'clock this morning. At 3 o'clock Villa launched his fiercest attack with the combined rifle fire, machine guns and cannon. American army officers who with their men were in the trenches facing the border all night pronounced the firing the most violent they had ever heard.

Villa opened on the western trenches of Agua Prieta with every gun available in his garrison. Douglas trembled under the vibrations of the continuous son, in support of a final rush by his Yaqui Indians about three o'clock. Calles replied with every weapon in his garrison.

## 13 DIE IN FIRE

New York, Nov. 2.—Thirteen persons, of whom six were men, three women and three children, lost their lives in a fire which destroyed a three-story brick tenement house at 66 North Sixth street, near the river front, in Brooklyn early today.

Most of the victims were overcome by gas, which leaked from a broken pipe in the building and were believed to have been conscious before the fire started. The smoke completed their asphyxiation and many of them were found dead in bed. All were Poles.

## ORPHANAGE IS DESTROYED

Harrisburg, Pa., Nov. 2.—Sylvan Heights Orphanage, the largest institution of its kind in the Catholic diocese of Harrisburg was destroyed by fire today but its 103 children, who were attending mass in the chapel when the flames were discovered, were marched to safety.

Defects in wiring are supposed to have caused the fire. Flames were discovered inside the winnowing of a room in the north wing and in a few minutes they ate their way to the roof.

Rev. Father Dennis Beardon continued the mass until all the children were out of the building, and he left the altar whose chapel was filled with smoke.

## CONFER OVER LUSITANIA CONTROVERSY

Washington, D. C., Nov. 2.—Count published instructions to German Von Bernstorff, the German ambassador, not to torpedo ships without warning, as embodied in the settlement of the settlement of the Arab case, and took under consideration the questions growing out of the sinking of the Lusitania last May, with the loss of more than 100 American lives.

The plan of reaching an agreement without the exchange of formal notes but by informal conversations worked so well in the handling of the Arab case that it is now to be followed in endeavoring to solve the Lusitania problem. Today's conversation was only an approach to the various issues involved in the controversy and it was indicated that it would take some time to reach a common ground or basis for settlement.

There is no disposition at the state department to hasten a settlement but to give every opportunity for a full and frank exchange of views. Originally the American government demanded disavowal of the act, reparation and assurance that the incident would not be repeated. The last is considered to have been disposed of through the

## BATTLE OF BALLOTS IN STATE AND THE NATION

Columbus, Nov. 2.—Interest in local contests in most cities today threatened to delay returns on the prohibition and stability amendments, and other general proposals until early hours of tomorrow.

Officials of the secretary of state's department expressed the opinion that the results of the vote and state wide question would not be known definitely until well into tomorrow. Boards of elections in many counties sent word informally that they had decided to disregard the secretary of state's suggestion that they cause ballots on prohibition and other general questions to be counted first, owing to the intense immediate interest in mayoralty and other local contests.

Sunny skies and moderate temperature over the entire state brought out an unprecedented number of early voters this morning according to reports reaching political headquarters here. Officials of the anti-saloon league re-

This is the great American day when we all join hands to settle in so far as they can be settled the "problems of government." I wish they could be settled better and a bit more permanently but I guess there's no chance. I reckon when the first offender ran acrosswise to the first restraint imposed by the "proposers of government" started and they've been getting worse and more complicated ever since. The nearest we can come to the millennium is perfect weather and here's a bit of that for tomorrow:

West Virginia—Cloudy and colder tonight and Wednesday.

# M'GOWAN CO. SEEMS TO SEEK FRICK'S DEFEAT

## Writes Letter At "Eleventh Hour" In Which Mayor Is Blamed For Delay

On the eve of the election, the John H. McGowan Company, of Cincinnati, which has the contract for the water works pumps that have so far proven unsatisfactory, injected themselves into the local contest, by attempting to discredit Mayor Frick in his efforts to make them live up to their contract with the city.

The McGowan company sent a letter to Portsmouth attacking Mayor Frick. That they wished to injure him and to advance the cause of his opponent H. H. Kaps, whose election they seem to desire, is shown by the fact that their letter reached the Morning Star and was published in that paper before it reached Mayor Frick.

The McGowan letter shows the truth of the assertion that every water works contractor whose job has proven unsatisfactory is assigned behind the candidacy of those opposed to Mayor Frick.

Answering the McGowan letter, Mayor Frick sent this reply Tuesday morning:

"November 2, 1915.  
"The John H. McGowan Co.,  
"Cincinnati, Ohio.

"Dear Sirs: At 6:45 a. m., I received a copy of your letter under date the first instant, the original of which was published in a night edition appearing on the streets of this city at 5 a. m. today.

"The purpose of your letter and its publication is so self evident that no person having a grain of honor or the interest of his constituency at heart would reduce himself to the political level by submitting anything in the nature of an answer thereto.

"Respectfully submitted,  
"ADAM FRICK, Mayor."

The letter to the mayor follows:

"Cincinnati, Nov. 1, 1915  
"Hon. Adam Frick, Mayor,  
"Portsmouth, Ohio.

"Dear Sir: Your statement conveyed to us in your letter of the 25th ult., that "no delay in completing your division need occasion by reason of reservoir conditions" is accepted by us as meaning that we shall be permitted to continue the work without

interruption. It is to be regretted that we were not so informed promptly following the failure of the new reservoir wall, as we were given to understand that both of the high service pumps would be required to deliver sufficient supply under the system of direct pumping until the reservoir wall was re-built. Pending this time, we would, of course, be prevented from doing any further work towards the completion of our contract.

"Your statement contained in the letter above referred to, that 'we care not what type of bearings or pipes are placed in these pumps,' is the exact information we have been seeking since the completion of the work incident to the refitting of the No. 1 Low Service Pump with babbitted adapter bearings and the refitting of the High Service Pumps with independent exhaust connections, made advisable through a change in hydraulic conditions, concerning which your board was advised and which necessitated a conference of the engineers representing your city and our company.

"At this conference, the entire Division No. 5 was gone over and notes made as to what part of the work was acceptable and what part remained unfinished to the satisfaction of the engineer for the city of Portsmouth. We progressed with the work under the agreement reached by the engineers as rapidly as conditions would permit. When we asked for an expression concerning the acceptability of the work done in accordance with the engineers' agreement as a means of guiding us in the remainder of the work to be performed under the contract, we found it necessary to appeal to you for definite advice, which was done in the form of a communication delivered to you in person by the writer on Oct. 27th.

"Failing to secure any satisfaction from you as chairman of the Board of Control, the writer visited the office of Wm. Gergens, director of public service and explained the situation, requesting that he call a meeting of the board to pass upon the points at issue. The proceedings at this meeting, which was held on Thursday, Oct. 29th at 3 p. m., were very informal, but it was quite noticeable that you did not give any other members of the board or any of your appointees having connection with the water department, any opportunity to express themselves until after you had declared your position.

"Your letter of October 29th, purporting to confirm action taken at this meeting, states that 'the board submitted to these gentlemen (meaning Mr. S. G. Pollard, our Advisory Engineer and the writer) that if there was not more material progress made within ten days that warranted the belief that satisfactory service would immediately follow, to advertise for bids to finish your part of the contract and through your bondsmen protect the people's interest.

"No such action was taken by the Board at this meeting and we fail to understand why you should make such a statement unless it was for the purpose of giving you a further opportunity of advancing your chances for re-election in the present campaign by giving the Portsmouth press such information.

"We are not at all interested in the political situation at Portsmouth and have been endeavoring to complete our contract on a business basis without regard to any political influence whatever, but it appears that you have not overlooked one single opportunity that has arisen to make political capital out of the slightest detail bearing upon the construction work under our contract.

"We have exercised extreme patience by allowing to pass unnoticed the unfavorable comments which you have made regarding our division of the work and our apparent inability to deliver to the city of Portsmouth, equipment that was provided to be furnished by us under the specifications, hoping that you would realize that your course was obstructing the completion of the plant and that you would eventually cooperate with us for the benefit of the city of Portsmouth, but unfortunately, your political interests have, at all times, appeared to outweigh your civic interests and the work has, as a result, dragged along for want of the approval of the work done following the conference referred to.

"You are responsible more than ourselves for the delays in completing our work. Your letter of the 25th ult. plainly shows that you are not even co-operating with your engineers, as Assistant Engineer Walter L. Watson stated at the meeting of the Board of Control on the 29th ult., that he expected us to equip No. 2 Low Service Pump with babbitted adapter bearings which had proved to work satisfactory on No. 1 Low Service Pump. Our files show that your attitude has placed the engineers in such a position that they could not act within the scope of their authority as defined in the specifications to correct certain phases of the work without being confronted with opposition from you.

"This opposition would tend to react on them in securing prospective engineering work in your section of the state and in maintaining what they had already secured. This condition of affairs has thrown additional burden on us because we have, in the interests of harmony, furnished considerable extra material and maintained a working force at the plant in compliance with the engineers' request, with the hope that we would be able to secure, without unnecessary opposition, an equitable adjustment at the proper time.

"We have disputed your assertion made at various times, that we were attempting to secure acceptance of certain units embraced in our contract and have informed you, as frequently, as they were made that we were only endeavoring to get an expression of approval of the work as it progressed to avoid useless expense and delay.

"We have never asked your engineers for any test looking to the acceptance of any branch of the work under our contract for division No. 5 which should be accepted as evidence that you were wrong in your assertion.

"We have been given no credit by you in maintaining a filtered water supply for the city of Portsmouth during the past year, although the maintenance of this service was effected under very trying circumstances, due to the necessarily slow process of adjusting the Low Service Pumps to proper operating conditions, because of change in well alignment. All work of the character covered by our contract is subject to more or less delay and what has arisen in the case of the Portsmouth contract, would have occurred to a more or less degree, with any other contractor for the same division of work.

"We are accepting as final, a statement made by you at the meeting of the Board of Control that the Board will have no further conference with us relating to our work and we wish to notify you therefore, that we are

flushing work on the feet remaining details that are necessary to complete our work in accordance with the engineers' conference. All other work will be completed strictly according to the specifications on which it appears we must depend solely for our further protection in the completion of our contract.

## Alleged Bigamist Must Be Given Credit For Picking Women Who Had The Looks

Under the caption, "Pretty Hello Girl Figured in Romance, But the Best She Could Do Was to Get a Husband Who is Now Claimed by Two Other Women!" the Anderson, (Ind.) Daily Bulletin, has the following concerning the case of a former Portsmouth barber:

"One thing which can be said for Malcolm E. Galloway, the barber arraigned for trial in the circuit court today on a charge of bigamy, is, that he is a man of fine discernment. All three of his wives, who are in court to testify against him, are above the average for good looks, and all are young women.

"Galloway, himself, is not a bad-looking fellow, so his luck in upsetting the hearts and affections of the fair sex is not particularly surprising. He has been in jail since his arrest at Portsmouth, O., last June, but when brought into court Monday morning looked neat, clean and natty as a bank clerk. A fresh shave and spotless linen served to enhance his general appearance. When Galloway was led into the court room by Deputy Sheriff Mike O'Brien, there was a perceptible stir among the three women whom he has at different times led captive

to hymen's altar. Then the wives got their heads together, but what they said to each other could not be discerned. Galloway apparently has an abundance of nerve, but not enough to face his trio of wives at one and the same time. He cast only furtive glances in the direction where the three women were seated in the court room. The fellow's family of five children were also there, but none of the little tots recognized their father.

**No. 2 Is Prosecuting**  
Wife No. 2, who before her marriage to the barber was Irene Gleason, a telephone operator at South Lebanon, O., is the prosecuting witness in the charge of bigamy on which Galloway is on trial. She is bitter in her denunciation of the man whom she says led her to be hanged as a single, while at the same time he had a wife and children living at Dixon, Ky. Galloway had married Sadie Jenkins in Kentucky in 1909, deserted her and came north. Drifting to the Ohio town, he married Miss Gleason after a two months' courtship, and they lived together, except at times, for four years. No. 2 says that during the four years she recognized Galloway as her husband, they lived in five different states, and she was deserted on three separate occasions. Within two months following the last desertion, the barber married his third wife, Florence Gregory, of Janesville, Wisconsin.

**Guilty of Perjury**  
It developed Monday that Galloway is guilty of perjury in connection with his third and last marriage, in that he went under an assumed name in the Wisconsin town, and the marriage license was procured under a name different from

his own. The barber was married in Wisconsin under the name of Edna Malcomb McGalloway, in September, 1914, and his bride did not know until the arrest of her husband, last June, that her name is not McGalloway. She is now living in Kansas City, but arrived in Anderson Sunday night to testify against her tricky spouse.

**Common Law Marriage**  
The fight will be to establish the fact of whether this was a common law or statutory marriage. The prisoner says there was no marriage ceremony performed. Wife No. 3 declares there was. The alleged wedding was in the form of an elopement, and took place at Covington, Ky., on the days when the famous greens were thrived there. The couple left South Lebanon, O., where the woman says and went to Covington for the express purpose of having a marriage ceremony performed. Reaching that city Galloway is said to have taken his companion to a corner drug store and left her there while he would go and get the marriage license. After an hour's absence the barber returned to the drug store accompanied by two men, whom he is said to have introduced as "Mr. Brown" and "Mr. Smith."

"Have you got the license," inquired the prosecuting bride.

"Yes," is the answer Galloway is alleged to have made.

Accompanied by the two men, the couple then proceeded to an upstairs office, where a man appeared to be waiting, and the woman says was introduced to her as a justice of the peace. He is alleged to have performed the ceremony which Miss Gleason claims she believed to be a marriage. The couple returned to

their home in South Lebanon and resolved to keep their marriage secret for a time. Miss Gleason resumed her place at the switchboard in the telephone office, and Galloway went back to his chair in the barber shop. After a few weeks the fact of the wedding became public and the couple began housekeeping.

The penalty for bigamy is two to five years in state prison, or a fine not exceeding \$1,000, or imprisonment in the county jail not exceeding six months, or both fine and imprisonment in the county jail, as the jury may determine.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it deters the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

In most of the precincts the election officers declared they expected to follow instructions and count the votes on amendments last which would indicate that it will be well into the night before the result of the majority contest will become known.

### SOCIETY

Friday, Oct. 29, was the date of a masquerade party given by John Scott at his home, 2201 Eighth street. Games and music were indulged in until a late hour. The most comic person was Sunshine Keller. He surely was a star. Next came Doris Stearns, who had Sis Perkins "beaten a block." Refreshments were served to 60 guests by Mrs. Jno. Oberly, Mrs. J. Isaac, Mrs. Tom Scott and Miss Madelyn Scott.

A masquerade party was enjoyed at the home of Mr. and Mrs. Charles P. Reinhard, of Franklin avenue, Monday evening. The dining room was decorated in black and orange. The evening was spent in playing games and music. Refreshments were served by Mrs. Reinhard, assisted by Mrs. George Anderson and Mrs. George Hawkins. Those present were Misses Beatrice Ahlstrom, Hazel Tierley, Thelma Cunningham, Jennie Dodge, Persis Flowers, Emma Harper, Louise Kayser, Marie King, Bessie Kittinger, Jennie Lynn, Lucille Molster, Ruth Thompson, and Messrs. Ruggles Bryant, Russell Burns, Dana Craig, Lee Kinschewille, Dana Jones, Paul Newman, Dale Pieper, Harold Reinhard, Fay Reinhard, Holly Rieckey and Carl Shultz.

**The Bridal Wreath.**  
The bridal wreath is usually formed of myrtle branches in Germany. It is made of orange blossoms in France as well as in the United States. In Italy and the French cantons of Switzerland it is of white roses. In Spain the flowers of which it is composed are red roses and pinks. In the islands of Greece vine leaves serve the purpose, and in Bohemia rosemary is employed. In German Switzerland a crown of artificial flowers takes the place of the wreath.

**Clever Smuggling.**  
This government was once defrauded of a lot of money by mineral water being smuggled as ice. For a long time the custom authorities at New York had handled large consignments of ice, the strange thing being that the freight under the price of the imported ice greater than the local ice. After a long time a sample was tested, which proved itself not simply plain water, but mineral water, which, if entering the country in its true form, would have been subjected to heavy duty.

**TRY THIS RULE.**  
Charles Kingsley thus counseled a friend: "Make it a rule, and pray to God to help you to keep it, never, if possible, to lie down at night without being able to say, 'I have made one human being at least a little wiser, a little happier or a little better this day.' You will find it easier than you think and pleasanter."

**Painters Busy.**

**Benefit Show.**

The Shamrock football team will give a benefit show at the Strand theatre next Thursday.

**New Operator.**

Eugene Ketter has resigned as night operator at the Home Telephone exchange in Sciotoville. Will McKinney has succeeded Ketter.

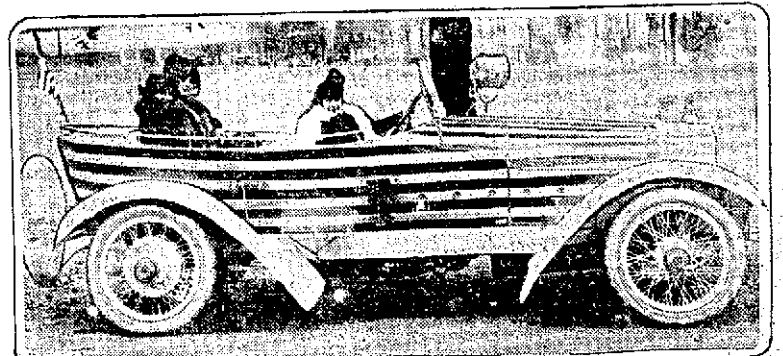

**Gold in Ancient Rome.**

Proclus Jacob in his "History of the Precious Metals" estimates from the accounts given by the Roman writers that in the reign of Augustus, the first of the emperors, when Rome was at the height of its power, the amount of gold in the Roman empire was nearly \$2,000,000,000. This vast treasure had been gathered chiefly by conquest from various nations of Europe, Asia and Africa. There had been extensive mines in Spain and in the Atlas mountains of north Africa, but their yield in the wealth of kings and of cities in Asia and Egypt had been despoiled and carried away to enrich the conquerors.

**Color of the World.**

A man's digestion has a great deal to do with the color of the world when he looks at it. There is more yellow in life from billowness than from the state of the atmosphere.—New York Telegram.

### FILM STAR STARTLES COUNTRY SIDE WITH HER FREAKISH CAR

Miss Grace Darling at the wheel of "Silver Bird." Miss Grace Darling, the popular film star, has one of the most freakish autos on earth, with which she startles the country side on her long tours. It is built of alternate two-inch strips of mahogany and white holly, while the deck is finished in bird's eye maple. She has christened her machine "Silver Bird."

## Stove Is Cause Of Junk Man's Arrest

John Gaddis, a local junk dealer, was brought before Mayor Frick Tuesday afternoon on an affidavit filed by Nellie Sandler, who has been living on Sixth, below Gay, charging him with the theft of a stove and other articles which she had hired him to take to the N. & W. depot, preparatory to shipping them away.

Gaddis' story was that he took the articles to the depot, and finding no one there, left them anyway. His theory was that some one stole them. He mayor discharged him upon his promise to pay the complainant \$4, the value which she placed on the goods.

**WITH THE SICK**

John Busl, aged German citizen of Front street, who has been ill for some weeks past, is able to be up and about again.

Frank Desterlin has been ill at his home on Offene street the past few days.

Miss Anna, young daughter of Mrs. Nellie Warden, of 731 Tenth street, is reported very ill with tonsillitis.

James Ryan, owner of the Buena Vista auto bus, was seized with a bilious attack while here Monday noon but was able to proceed with his return trip on schedule time.

Mrs. Michael Boehm, of Buena Vista, who has been in poor health for some time past, came to Portsmouth Monday for medical treatment. She was accompanied by her husband.

Rosemary, the baby daughter of Mr. and Mrs. Isador Edelson, of No. 1122 Second street, has been quite ill the past few days.

Dr. O. A. Grimes of Concord, Ky., was in the city on business Tuesday.

David Thomas, two story eight room house at No. 621 Sixth street \$4000. Ed Russell contractor.

**Movement of Icebergs.**

In the investigation of the currents round the coast of Newfoundland it has been observed that there is at times a wide difference in the direction of the drift of icebergs and that of the surface currents, which, having no great depth, is governed in its motion by the surface currents and the winds, whereas the icebergs, the larger parts of which are submerged to a great depth, follow only the movement of the ocean water as a whole and are uninfluenced by the winds. In consequence a large berg may often be seen majestically maintaining its slow advance in opposition to the wind and across the general motion of the fields of flat ice surrounding it.

**The Thinker.**

"She has ideas of her own." "Indeed! What a disagreeable person!"—Detroit Free Press.

**MODERATION.**

In work or play never overdo. Balzac said: "By two instinctive processes man exhausts the springs of life within him. Two verbs cover all the forms which these two causes may take—to will and to have your will." If you will to do too much in any line you exhaust the springs of life. To keep health, to keep young as long as possible, strive in work and in play, in eating and thinking, to preserve the golden mean.

**Peculiar Lakes.**

On the Mangishlak peninsula, in the Caspian sea, there are five small lakes. One of them is covered with salt crystals strong enough to allow a man and beast to cross the lake on foot. Another is as round as any circle and a lovely rose color. Its banks of salt crystal form a setting, white as the driven snow, to the water, which not only shows all the colors from violet to rosy red, but from which rises a perfume as of violets. Both perfume and color are the result of the presence of seaweeds, the violet and the pink.

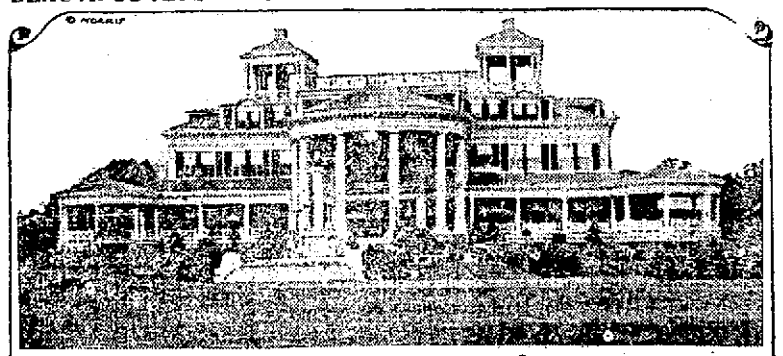

**On Guard.**

Philo—Did you say window or widow? Sophy—I said widow, but they are both very much alike. Philo—How so? Sophy—Well, you see, when I get near either of them - always look out.

**Her Identity.**

"Tender girl's a dater." "She isn't, for I know her, and she's a black cat Susan."—Exchange.

## THE MARKETS

CHICAGO GRAIN  
AND PROVISIONS

Chicago, Nov. 2.—Bullish cable advices gave the wheat market today a decided upward swing.

Quotations from Liverpool showed a material advance, and were accompanied by dispatches saying the purchase of wheat from Bulgaria on the part of Greece was causing serious political complications.

Smaller receipts in the American northwest operated also against the bears. After opening 1/4 to 1/2 and 3/4 higher with December at 102 1/2 to 108 and May at 104 1/2 to 104 3/4, prices began sharp further gains before beginning to react.

Corn rose as a result largely of estimates that this season's crop had an average quality of only 77.9 as against 85 for a series of years. Wheat strength counted also in favor of the bulls. Opening prices which ranged from 1/4 to 1/2 higher were followed by a moderate additional rise.

Signs of European buying at Winnipeg tended later to hoist the market still higher and so also did assertions that United States winter wheat acreage would show a decrease of 15 per cent. The close was strong, 1/2 to 2 and 2 1/2 net higher with December at 104 1/2 and May 105. Smallness of country offerings brought about a subsequent further advance. The close was firm 1/4 to 1 cent above yesterday's finish.

Demand from the east lifted oats. As to other sections however, were slow. Provisions displayed a slight tendency to harden in value. There was but little

pressure to selling.

Falling off in western stocks of cut meat exerted subsequently a noticeable bullish influence.

HORSE SCARES AT AUTO,  
BUGGY GOES OVER BANK

G. Wash Williams had a narrow escape from a serious accident on the Scioto Trail, near the Creek-baum residence Monday.

He was on his way to town when his horse frightened at an automobile driven by a Gallia street young man named Craleton. The auto was stopped, but when it started up again Mr. Williams' horse began bucking and upset his buggy, the outfit going over a bank. Mr. Williams was unhurt but his buggy was wrecked.

A fence is badly needed at this point, the road being narrow and there being a steep bank on each side.

## Villa Baffled

(Continued From Page 1.)  
on the American town, from the United States army trenches at the border, to points a mile or more from the line. Scores of women and children covered behind brick or adobe walls.

The United States customs house which was fired on by a Villa machine gun platoon yesterday when Louis F. Taylor was shot in the back, was again peppered by Mexican bullets. Its roof and porches were perforated in many places.

The American trenches were plentifully sprinkled with bullets also. Private Harry Jones, Company C, Eleventh Infantry, was hit in the stomach and probably fatally wounded while guarding a company wagon near the army field hospital.

Private James Tank, Company D, Eleventh Infantry, was struck in the legs by a bullet that fell into a section of the trench a few feet from the customs house. No move was made by any of the United States army detachments to return the fire.

When Villa forces drew off after daylight it was reported they were not in retreat, but had ceased their attack in order to procure water. Their canteens were empty and many had not tasted food for 24 hours or more, according to Mexican officers who approached the border. Villa still intends to take Agua Prieta, these officers declared.

Mines exploded by Calles, west of Agua Prieta, killed 300 Yaquis, according to reports from the Mexican town.

Twenty-three hundred refugees were concentrated at a camp at Pirtleville, a suburb of Douglas. They were practically without water last night. Dr. J. J. P. Armstrong, Calles' chief surgeon, declared this was due to dilatoriness of American officials. The refugees were without lights last night and food supplies were scant until today.

Daybreak showed that little damage to the defense of Agua Prieta had been done in last night's battle. The barbed wire entanglements with the exception of one gap of about 20 feet, appeared intact while the earthworks showed little effect of the rain of shells poured upon them all night.

The town, however, showed many damaged buildings and the list of dead and wounded was a heavy one.

After the last heavy bombardment the Villa forces which at some points had approached to within a few hundred yards of the wire entanglements, fell back about a mile and began entrenching. The right flank of the Villa forces rested squarely on the boundary fence.

Major James R. Ryan, thirteen cavalry, received a report that 35 women and children had been killed in Agua Prieta, and many women and children wounded.

General Funston arrived at 7:45 a. m. to assume command of the American forces here. At that hour firing had ceased on the Mexican battlefield.

## Predict Delay

(Continued From Page 1.)  
ported indications were that one-third of the total vote in cities and villages had been recorded before 8:30.

Columbus, O., Nov. 2.—Fair weather, which was reported to be general throughout Ohio, caused politicians here this morning to predict that a normal vote would be polled in today's election. In the cities, chief interest in the results was almost equally divided between the state-wide prohibition issue and mayoral candidates. Returns on the so-called stability amendment which would prevent for 6 years a vote on a constitutional proposal which has been twice defeated also were eagerly awaited.

In Columbus, today's election was the first held under the new city charter which provides for the preferential ballot. A new mayor will be selected from a list of nine candidates.

Interest In The Prohibition Fight  
Cincinnati, O., Nov. 2.—Interest in the election in Cincinnati today appeared to be chiefly centered in the state-wide prohibition amendment and the mayoralty contest.

The city ticket has four ballots on it, Republican, Democratic, Socialist and Advance.

It was conceded, however, that the race for mayor was between George Puente, Republican, and Charles Sawyer, Democrat.

## Toledo Has Interesting Battle

Toledo, O., Nov. 2.—With ideal weather and with interest centering in the twenty-five year street car franchise, the polls opened here this morning under favorable circumstances there are three candidates for the mayoralty, George A. Murphy, recently removed, as chief of police, being one of them.

## Woman's Suffrage In New York

New York, N. Y., Nov. 2.—Some six thousand women arose long before daylight and when the polls opened at six o'clock this morning were on duty in every election district of New York City as watchers for the cause of woman suffrage.

Proposed changes in the constitution were the only state-wide issues before the voters of New York today. A new constitution was submitted for popular approval, but the suffrage question appeared on the ballots as a distinct proposition calling for a square vote.

## Massachusetts Voting On Woman's Suffrage

Boston, Nov. 2.—Indian summer weather aided the political managers today, and the rush to the polls in the early hours gave promise of an unusually large vote in the state election. It was generally predicted that the race between Governor David I. Walsh, Democrat, seeking re-election, and his Republican opponent, former Congressman Samuel W. McCall, would be close.

Interest in the voting on the suffrage was fully as keen as in the contests for the state officials. Near the polling places in most of the cities and many of the towns women were on hand early prepared to stand throughout the day displaying banners asking for "votes for women."

## Liquor An Issue In Virginia

Richmond, Va., Nov. 2.—Virginia voters today are balloting for a legislative which will enact laws making operative in September 1916 an amendment to the state constitution prohibiting the sale of intoxicants.

The amendment was adopted last September and the campaign which ended today was actually on the issue of shipments of intoxicants into the state. Senate and house leaders who were opposed to state-wide prohibition have been active in the movement for drastic laws to keep liquor out of the state.

A curious looking group of men invaded Wall street, New York, the community of sleek bankers, pick and span brokers and well groomed clerks and office boys, carrying signs on which some pertinent questions were asked. sequence a large vote was expected. Woman suffragists, who continued their oratorical campaign up to midnight last night were on guard at the many polling places throughout the state today watching the voting and making individual appeals to the men to give the women the right to vote.

In Philadelphia where a spirited mayoralty contest is on, the voting in the early hours was very heavy, exceeding in some election districts the vote at the last election.

## Voting In Detroit

Detroit, Nov. 2.—With representatives of a national detective agency, engaged by an organization known as the Honest Election League, on duty in every voting precinct and with at least \$7,000 in rewards offered by various interests for the arrest and conviction of illegal voters, Detroit began voting in earnest today on the municipal street railway question. The polls were to be open until nine o'clock tonight and it was expected the vote would be the heaviest cast here in years.

## Mississippi Election Merely Perfunctory

Jackson, Miss., Nov. 2.—Because of the large majority of Democrat voters in Mississippi, today's election in this state was regarded merely as a ratification of the nominees chosen in the Democratic primary. Voters balloted for a full set of state, county and district officers and members of both branches of the legislature. The Democratic ticket was headed by Theodore G. Billie, for governor and Lee M. Russell, for lieutenant governor.

John T. Lester, for governor, P. T. Maxwell, for lieutenant governor, head a socialist ticket placed in the field by petition.

## Cleveland Vote To Be Heavy

Cleveland, Nov. 2.—The heaviest vote in the history of the city was indicated here today when the morning dawned fair. Early reports showed an unprecedented number of ballots cast in the first two hours. The mayoralty and the state prohibition issues were headlines.

## Interest In Governor's Fight In Kentucky

Louisville, Ky., Nov. 2.—Perfect weather is forecast for Kentucky today, and the high interest that has been manifested in the result of the gubernatorial race between Governor Cassian A. A. Stanley, Democrat, of Henderson and Edwin P. Morrow, Republican, of Somerset, is expected to bring out a vote much above normal.

## Maryland Voting On Governor

Baltimore, Md., Nov. 2.—Ideal weather was provided for today's election. The early voting was reported to be good. There are no reports of voters in the field, and the interest centered in the contest for the governorship.

## Big Order For Shells

damaged two battleships, five gunboats, one torpedo boat, eight transports and 197 supply ships. Mr. Asquith said there was no agreement between Great Britain and France to maintain the independence of Serbia and not let her become the prey of the Slavist and notorious combination of Germany, Austria and Bulgaria.

The premier accepted his full share of responsibility for the third attack on the Dardanelles, which resulted in failure, with the loss of several capital ships. He said this attack was made after

full investigation and consultation with naval experts and that it was sanctioned by the government notwithstanding some doubts in the mind of the government principal naval advisor. Premier Asquith said he strongly believed the recruiting plan of the Earl of Derby would succeed and that compulsion would be unnecessary.

## RUMANIA

(Continued From Page 1.)

Vienna reports that a "grave situation" may arise between Austria and Rumania in connection with the proposed use of the lower Danube to transport Russian troops to Bulgaria. Little news comes direct from Bucharest, as the censorship is enforced so strictly that even ordinary messages are stopped, but it is known the agitation in favor of war is spreading through the army.

The Austrian, German and Bulgarian armies are drawing the net more closely about Nish. In the south the French assert they have inflicted considerable losses on the Bulgarians who are reported to have been thrown back on the right bank of the Vardar.

The only political development of note in the Balkans is a change of tone in the ministerial press of Athens, which is publishing apparently inspired articles of a nature friendly to the entente allies although insisting Greece must maintain her policy of benevolent neutrality.

Along the eastern front there is evidence of a considerable extension of the Russian offensive. This is indicated by official reports from both sides, although neither claims any important result from these operations. Definite reports concerning the progress of the new German attack on Riga also are lacking.

## INFIRMARY BURNED

Lebanon, O., Nov. 2.—The Warren county infirmary here was burned today entailing a loss of \$50,000. The one hundred and fifty inmates were rescued. Crossed wires in the attic is believed to have caused the blaze.

Derivation of "Canon." The word "canon" is Greek for "rule," and is itself derived from "canna," a reed, which was selected by carpenters on account of its straightness. Hence from a measuring rule, it became a figurative rule for measuring and regulating church doctrines.

## "Bob" Starks Was Permitted To Vote

Starks took up the matter with the board of elections, members of which instructed the election officials to permit him to vote when it was learned that he was temporarily living out of the precinct while his home was being repaired. Starks has been voting in that precinct for several years.

## Mrs. Gill Is Burned In Explosion; Doctor's Auto Is Wrecked Hurrying To Scene

Two accidents occurred within a few minutes of each other at the home of Dr. Joseph H. Gill, veterinary surgeon, of No. 519 Third street and immediate vicinity, Tuesday.

Mrs. Gill had placed some sweet potatoes in a gas stove oven to warm for her husband, who had gone to the West Side on a call and turned the fire low. The top burner was left burning. The fire must have become extinguished and gas accumulated in the oven for when later she opened the door to remove the potatoes an explosion resulted. She was burned about the face and hair and her eyes were reddened. The burns, however, are not regarded as serious.

Dr. Carl G. Brannin met with a smashup while responding to a hurry call from the Gill home. He was "nearing" the home and had started to slow down his little auto when George P. Jacobs' auto next delivery truck which had been standing a few feet east of the home unexpectedly turned in front of him. The tender of the meat truck was knocked in while the physician's machine had one wheel smashed, the fender knocked in, both front springs broken and an axle spring but was still able to keep on running. Neither of the occupants of the machines was injured.

## THEATRICAL

"Traveling Salesman" Scores A Success at the Sun

Score another success for the Ted Dalley Stock Company for the way they presented the comedy "The Traveling Salesman" at the Sun theatre last night. The comedy was a success. The Sun theatre last night showed that this company is equal to any play they put on for even every little detail was there. All the members of the big cast had good parts and they handled them in a fine manner. Mr. Dalley appeared as "Bob Blake, the Traveling Salesman" and to say that he played the part means just what it is said for he handled it in a manner that thoroughly established him as the actor that he is. Miss Winnie as "Beth" gave him able support, likewise the entire company.

The scenic effects were good, especially the first act showing the country railroad station and the characters in it that can be found in any village. The poker game in the second act was very amusing, so taking the entire performance as a whole it left nothing undone to make it the finished program that it was.

Tonight the second episode of the great Pathe serial "Neal of the Navy" will be shown and eleven returns will be read between the acts.

## VALUE OF LIFE.

No one, I am sure, ever laid down a great tragedy without an overwhelming sense of the value of life—as it is, life at its most pitiless and cruel, with all its iniquities, suffering, perplexity—without feeling that he would far rather have lived and had all that than not have lived at all.—G. ## Driving the Fact Home.

There are various methods, diplomatic or brusque, of notifying an unsatisfactory employee of his dismissal.

The most picturesque and original of methods was that which Uncle Jimmy Gilbert used to use in his printing office. When a new man came, Uncle Jimmy drove a nail in the wall for him to hang his hat and coat on.

Some morning the man would come to work and find the nail driven in up to the head. He knew that he was through then.

## Many Children Suffer From Kidney Trouble

Three years ago my little girl, Angela, was taken sick with kidney trouble and after days of suffering and a long stay in hospital, she was finally cured by the use of Dr. Williams' Pink Pills. A leading physician here at the time, treated her without the slightest success. A sample of your Swamp-Root having been left at the house at the time, I resolved to try it, and as it agreed with her stomach I continued using it with gratifying results. The inflammation began to subside after she had taken the first fifty-cent bottle, and after she took two large bottles she was pronounced cured by the doctor and has been in good health ever since. The doctor came to see her every day and examined her every second day until he pronounced her kidneys in perfect condition.

Now then the doctor was under the impression that I was giving my girl his medicine, but as his medicine had failed to do a bit good, and desiring not to offend him, I did not tell him I was giving her Swamp-Root and he did not know the difference. I did not use one drop of his medicine after I started my girl on Swamp-Root, and have always felt that Dr. Williams' Swamp-Root saved my girl's life, for which I am grateful. I cannot praise it too highly.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, trifles, woe, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 66.

Dear Miss Wise—Will you kindly tell me which is the proper way to eat a sandwich?

GOLDIE.

The most delicate way is to use the knife and fork. There are some persons, however, who prefer to cut the sandwich in little pieces and pick each piece up in their hands.

Dear Dolly—I am trying to drink buttermilk, but I dislike the taste so much that I can hardly get it down. Could I add anything to it to make the taste more pleasant?

A READER.

Some people make buttermilk more palatable by adding salt to it. Did you ever try the "artificial" buttermilk. I like it much better than the home-made article.

Dear Dolly—I am a boy in my teens and my hair stands forward and gives me a very wild appearance. I have tried several remedies on it, but none has done it any good. If there is anything you know that would make it lie down I wish you would publish the information.

P. W.

Have you tried applying vaseline to your hair and then brushing it in the proper direction? Sometimes wetting the hair with water and then brushing it will help to train it. Why not wear a night cap or hair ribbon to keep it in place at night.

Dear Miss Dolly—What do people mean when they say a man or woman is "clean"? Does it mean baths and changing clothes, and how often, if it does?

WANT TO KNOW.

"Clean" when used in connection with a man or woman usually means that they have clean thoughts and clean minds. It means that they do not foul their lips with vulgarities, and that they believe in morality. These things make the desire for clean bodies, baths and clean clothes. Men and women rather pride

themselves on being "clean," which does not mean priggish, either.

Dear Miss Dolly—When a girl has a dance engaged with a young man should she rise when the music starts or should she remain seated until her partner claims her?

CATHERINE.

She should wait to be sought by her partner; but, of course, she would not keep in a secluded place, so that he will have an effort to find her.

Dear Miss Wise—Owing to a recent illness my hair is falling out at an alarming rate. What can I do for it?

LUCY.

With careful treatment you should be able to improve the condition of your hair. Massage the scalp gently every day and rub into it every other day a few drops of castor oil. After every massage brush the hair. This may cause the dead hairs to fall freely, but the brushing will stimulate the circulation of the blood through the scalp and cause new hair to grow.

Dear Miss Wise—Will you please give me your recipe containing benzoin to whiten the skin?

GRACE.

Following is the recipe you desire: A teaspoonful of the tincture of benzoin to an ounce of rosewater forms a well known lotion, which is excellent for whitening the skin.

Dear Dolly—Will you please tell me of an easy way to push the cuticle back from the nails? Also tell me how often the nails should be filed.

NETTIE.

If you will apply olive oil or cold cream to the cuticle every night before retiring, you will find that it will be quite easy to push back the skin. Of course, you should hold the finger tips in warm soapy water for a few minutes before you attempt to push it back. Use the blunt end of the orangewood stick for the purpose, so that you will not injure the cuticle.

File the nails as often as neces-

sary. In other words, when they grow too long or unsightly, use the file.

Dear Miss Wise—I am a girl of almost eighteen and acknowledge being very much interested in a young man somewhat older than I am. Although my mother allows me to entertain my friends at home, she seriously objects to this particular young man, and has no just reason for doing so. Can you advise me in what way my friend can win my mother's good will?

NELLIE.

You are too young to be "seriously interested" in any particular man and don't allow yourself to think you are. Naturally, you have preferences, but don't drop

your other boy friends for any of them. I imagine your mother has a good reason for not approving of this one friendship, although she should be frank with you as to her objection. Why not ask her what it is? It may be a little thing, and your friend may be able to explain it away satisfactorily, but take it from me, Nellie, in this day and age mothers are usually pretty keen in their judgment.

Kentucky Girl—Yes, to your first question. Yourself and your mother or brother could call and inquire how he is getting along. Do not assist a gentleman on with his overcoat unless he cannot manage it himself. Chocolate Fudge—3 cups of granulated sugar, one cup of sweet milk, one-fourth cake Baker's chocolate. Cook until it forms a soft ball in water, then add one large teaspoon of butter and a pinch of flour; stir until it begins to harden. You can actually feel it take hold. A day's use will usually overcome the ordinary cough—relieves even whooping cough quickly. Splendid, too, for bronchitis, asthmatic cough, bronchial asthma and winter coughs.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. ### GERMAN GOVERNOR OF BELGIUM DEFENDS KILLING OF NURSE

Left, Governor von Bissing (top) and Brand Whitlock; right, Miss Edith Cavell.

General von Bissing, Germany's military governor of Belgium, who ordered the killing of Miss Edith Cavell, the English nurse, declares that his "mature" judgment found her to be just as she had aided her countrymen in their efforts to return to England. Brand Whitlock, American minister to Belgium, vigorously formed a different judgment, for he did everything in his power to save the woman, who had nursed Germans and English alike, from the firing squad.

#### BETTER BABIES

The crusade for better babies has spread from coast to coast, and taken firm hold of American Mothers. Few women realize how much the ill health of the mother influences the unborn child, both physically and mentally. Women who suffer from mysterious pains, backache, nervousness, mental depression, headaches, etc., should rely on Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, which for nearly forty years has been the standard remedy for these ailments.

### The Movies

The Columbia—"The Campbells Are Coming" Tonight, Viola Allen in "The White Sister" Tomorrow.

Manager Tynes takes great pleasure in announcing to his patrons the coming of Viola Allen in "The White Sister" to the Columbia tomorrow afternoon and evening.

As a book and as a play, "The White Sister" created a sensation. Filmed for the screen by Essanay, with Viola Allen in the title role and Richard C. Travis as leading man, it will be the sensation of the motion picture world. The director has caught the heart throbs of a woman and used them with the subtlety of genius in making the world's greatest motion picture. Many people thought the end of perfection had been reached in the stage version, but the film version is greater and better, because Viola Allen has, before the screen, done the greatest work of her wonderful career.

Six reels are required to tell the story of "The White Sister"—six reels that are crowded every moment with the hurrying events of a great life drama. The pictures are superb; the costumes are correct in every detail; the scenes are laid correctly as to atmosphere. There is nothing missing, nothing wanting in this most beautiful and wonderful of motion pictures. Every part is perfectly cast. It will set the standard for all other six reel pictures.

The Columbia today presents Francis Ford and Grace Cunard in "The Campbells Are Coming." This thrilling photoplay has aptly been called "the military spectacle of the year." The result is a picture that rings true, that has a punch such as a vigorous director like Francis Ford knows how to get into every act and every scene. The story deals with the Relief of Lucknow, in 1857, at the time of the Indian mutiny against English occupation. Francis Ford plays the part of an Indian prince who is responsible for the revolt of the native soldiers. How the famous Scotch regiment of the Clan Campbell carved their way through shot and shell to the rescue of the brave defenders makes a story that keeps one absorbed every tense moment. Grace Cunard as the Scotch school teacher, captured and imprisoned by the prince, gives a wonderful portrayal. Altogether "The Campbells Are Coming" is a fine picture that will enchant any movie audience.

#### Two Big Specials At Strand

The headline feature at the Strand tonight is "Gertie's Joy Ride," an I-Ko riot of fun with Gertrude Selby, Hank Mann and Reggie Morris.

Some of the most hair-raising stunts ever pulled off are seen in this comedy film, especially where Gertie's automobile goes end over end down a high embankment.

Second feature, "The Shot," Powers' two reel drama with Sidney Ayers and Doris Pawn relates a tragic story of social sin. "The Shot" treats a delicate theme in a masterful fashion, without offense, yet with an iron grip beneath the kid gloves.

#### At The Temple Tonight

At the Temple tonight (Tuesday) will be Wm. Fox in a powerful and magnificent production, "The Regeneration," in six parts, adapted from Owen Kidder's undying romantic and tragic story, "My Manic Rose," acclaimed from coast to coast by public and newspaper critics as the greatest screen triumph of the year, one of the sweetest and most compelling stories ever written, a powerful drama of brilliant power and depth, a play that moves and sways with the deep undercurrents of human life and emotions. Anna Q. Nilson is the star and makes a tremendous impression with her wonderful beauty and talent. You can not possibly be disappointed with this picture. The admission will be 15 cents.

#### Big Western Drama At The Majestic Theatre Tonight

A big western Mutual movie in two parts with an eastern title, "The Girl from the East," will be the headline at the Majestic theatre, Second street, this evening. This is one of the best western plays ever produced in the realms of the silent drama, and you can't afford to miss it. It is a play with a purpose and so is interesting that spectators will be held spell-bound from beginning to end. In addition to the big western play, the Majestic will show a heart interest drama in one part entitled "A Marvelous Marathoner." Following this and completing the big program will be a comedy entitled "The Big Brother," a sure enough mirth provoker and a clean cut, high class comic. Come tonight and see the best show of the season for the admission of five cents.

#### At The Exhibit

"The Shadow and The Shade" John Hillman, a banker, is convalescent after a serious illness and is cared for by his wife, Anne. Hillman is told that he may visit his office, but must avoid all excitement, for a sudden shock might prove fatal. Robert Foster desires to effect a compromise with the Hillman interests who control the Consolidated Stores Company. He sees Hillman at his office, who refuses to compromise. Foster, in desperation, remembers that he knows Hillman's wife years ago and resolves to plead with her.

Wife years ago and resolves to plead with her.

Foster tells his confederate that with Hillman removed a settlement cannot fail to be effected. He causes a note to be written Mrs. Hillman, signed by her husband's physician, asking her to consult with him privately regarding Mr. Hillman's condition. Foster has had a profile of Anne Hillman fastened to a window shade opposite the window of Hillman's apartment. A light placed behind the silhouette makes it appear as if Anne were in Foster's room. Spying this profile, the excitement is too much for Hillman, who falls to the floor unconscious. His man servant, conspiring with Foster across the way, phones to Foster that Hillman is dead.

Dr. Harden and Anne Hillman enter the Hillman home, where the physician restores Hillman to consciousness. Mrs. Hillman calls in Dr. Carson, of the Secret Service. He discovers Foster's plot and summons the police.

"Near Eternity" and "A Safe Investment" complete the program for today. Five cents covers the cost for all. The attendance grows daily.

#### Strong Drama At The Arcana Theatre Tonight

While waiting for the election returns come to the Arcana theatre tonight and see a big strong drama entitled "Deceivers," a play that is put out by the Gold Seal Film company, proof positive of its goodness. It shows where the honor of a woman triumphs and her would-be traducers are bound about in the meshes of the law. In addition to this big feature, with Agnes Vernon and Willis Marks taking the leading roles, Manager Potts will give two other bills entitled "Seeking An Inspiration," a comic, and "Roses and Thorns." The bill tonight is an exceptionally clever one and a big city show at the small admission of five cents. Come and hear the splendid music as rendered by the Wardlaw Orchestra. New selections have just been received and they will be played this evening for the first time.

Too Great a Strain. Every once in a while the actor while taking the part of a duke in a play would spend large sums of his stage money. On one of these occasions it seemed too much for a certain person in the audience, for a voice rang shrill and clear through the house, "Hey, Bill, how about that five you owe me?" —Exchange.
